Media Release

**Minister Ramnarine and Three of His Cabinet Colleagues Tour Energy Port and Fish
Landing Facility**

Energy Minister Kevin Ramnarine together with his Cabinet colleagues Ministers Jairam Seemungal, Nizam Baksh and Winston Peters last Friday toured the new Energy port at Galeota and the new fish landing facility at Guayaguayare. Minister Winston Peters is also the MP for the constituency of Mayaro where both facilities are located.

Both facilities are being built by National Energy and will be soon formally opened.

The Energy Port at Galeota will support the activities of the major oil and gas companies operating on the east coast and is important given the significant increase in exploration activity particularly in the deep water province off the East Coast. The new port at Galeota will also provide a dedicated berth for the Trinidad and Tobago Coast Guard.
